- [4 Actionables](#)

## Summary

Map of Tasmania is covered in water at zoom level  $\geq 10$ .

## Timeline

On Sunday March 5 Tasmania started to be rendered as mostly water [Task T159631](#).

The task was triage as UBN! on Monday Mar 6.

The problem was a combination of problematic data in OSM upstream (The whole Tasmania was marked as natural=bay) and the fact that our styling identifies water in a different way than most OSM styles. A detailed postmortem is available on [Task T159631#3078163](#).

Issue was resolved around 10pm Mar 6.

## Conclusions

Investigation was longer and more difficult that it should be due to missing knowledge and missing investigation tools.

## Actionables

- A detailed post mortem is available on [Task T159631#3078163](#), actionables are still being created as subtasks.
