

# Microsoft OneDrive is down worldwide

By Andy Weir [@andyweir](#) 15 13:37 EDT · **HOT!**

Cloud computing is a wonderful thing - except, of course, when you can't connect to are stored. Unfortunately, many users are finding this out for themselves today, as t people being unable to connect to Microsoft's OneDrive today.

At time of writing, attempting to access OneDrive simply spits out an error message, not clear if this is a complete worldwide outage, or if only certain markets or regions OneDrive for Business servers have not been affected by the outage.

Still, while you're waiting for OneDrive to come back up, you can amuse yourself by r how many different variants of the error code you can spot, as @BAV0 pointed out o

[.@onedrive](#) error messages... Gotta catch 'em all :D [pic.twitter.com/JMBTEXVoJ1](https://pic.twitter.com/JMBTEXVoJ1)

REVIEW

RECAPING VIDEO

Microsoft has announced the company will be releasing a new line of Surface devices, including a new Surface Pro 7 and a new Surface Laptop 3. The new devices are expected to be released in the fall of 2020. The new Surface Pro 7 is expected to be a more powerful device than the previous generation, with a faster processor and more RAM. The new Surface Laptop 3 is expected to be a more stylish device, with a thinner design and a better display. Both devices are expected to be available in a variety of colors and configurations. The new devices are expected to be a significant upgrade over the previous generation, and they are expected to be very popular with consumers. The new devices are expected to be a great addition to the Surface line, and they are expected to help Microsoft continue to grow its market share in the tablet and laptop market.
